Key Benefits

This is where food meets functionality

There’s a difference between “functional foods” and foods that actually provide a functional benefit to support your health. That’s

Key Benefits	Nutrition & Ingredients	How To Use	Frequent Questions	Customer Reviews
--------------	-------------------------	------------	--------------------	------------------

Beets (fermented and non-fermented) are emerging as one of nature’s most potent superfoods, providing certain essential nutrients, vitamins and minerals. But where this superfood shines is that it’s a great source of dietary nitrates, which help your body produce Nitric Oxide. Depending on the naturally occurring level of nitrates in the beets you eat, which can be highly variable, you might have to eat a lot of beets in order for your body to experience the N-O benefits you’re looking for, which isn’t

GET 10% OFF ✕

SuperBeets help ensure that your body gets essential Nitric Oxide, the circulation powerhouse, derived from dietary nitrates and fermented beetroot powder.

One scoop, or the recommended serving, has the Nitric Oxide equivalent of three whole beets, helping support:

- Nitric Oxide production
- Healthy circulation
- Healthy blood pressure levels
- Increased energy and stamina

Our products have a team of scientists behind them

At HumanN, our scientists understand the mechanisms that effectively metabolize nitrate and nitrite in the body to produce Nitric Oxide. We approach Nitric Oxide holistically.

- Our team of scientists spans food science, nutrition, physiology and kinesiology
- Our science leadership team includes one of the world’s leading Nitric Oxide researchers and also one of world’s top sports nutrition scientists
- Our functional foods and supplements are backed by 15 years of research at the University of Texas
- We’ve conducted seven clinical trials on our own products

Our team of food scientists and nutritionists work together to not only optimize the N-O activating potential in our products, but also formulate to help ensure the body is utilizing the efficiency of the nutrients found in our functional foods.

[Read more](#) about the science of Nitric Oxide and our team.

Nutrition & Ingredients

One scoop or three whole beets?

We select only the highest quality beets that consistently exhibit high levels of dietary nitrates and other supporting nutrients to help increase Nitric Oxide production in the body. Our beets are carefully selected and we test every new crop of beets at the time of harvest for specific levels of dietary nitrate and other key nutrients. Through our unique process, we preserve the nitrate integrity of the selected beets by converting them into a dried crystal form. So when you drink it, you know you’re going to get the functional benefits of beets.

Unlike any other product on the market, SuperBeets® are highly-concentrated beet crystals. With it, you get:

- The Nitric Oxide equivalent of three whole beets with just one convenient and great tasting serving
- The highest quality, non-GMO beets grown in the U.S.A.
- An excellent source of Vitamin C
- A functional food that exists at the intersection of science, health and nutrients sourced from REAL foods

- A world-class team of food scientists, leading experts in dietetics and nutrition and physiology researchers, all focused on activating Nitric Oxide in your body

This means more energy and cardiovascular benefits when you make SuperBeets® part of your daily routine. In fact, many of

How To Use

Easy to take, easy to drink.

Mix one scoop with four ounces of water and enjoy it as a quick, refreshing drink. Each canister contains a one-month supply, or thirty servings. Make sure to store the canister in a cool, dry place and use within 45 days of opening.

The sweet taste may surprise you.

Now you can get all the benefits from beets without having to eat beets or drink beet juice that tastes like beets. You can enjoy SuperBeets in two great tasting flavors: Original Apple and Natural Black Cherry. Both are refreshing and delicious.

How to use our line of SuperBeets products together.

We designed our line of SuperBeets products to be taken together if you'd like. If you'd like to learn more about the difference between each SuperBeets product and how to use them together, read our latest post here: [How to Use Every Type of SuperBeets in a Single Day.](#)

- **SuperBeets** is our original circulation superfood. SuperBeets helps support healthy circulation, heart health, and healthy blood pressure levels with the nitric oxide potential of non-GMO beets grown in the U.S.A.
- **SuperBeets Energy Plus** is infused with 80 mg. of plant-based caffeine from green tea extract to help promote mental focus and a smooth, heart-healthy energy boost when you need it the most.

- **SuperBeets Collagen** features high-quality collagen peptides from grass-fed cows that were enzymatically hydrolyzed into low-molecular weight peptides for optimal use in your body to help support healthy skin.
- **SuperBeets Immune** features clinically studied Wellmune®, a yeast beta glucan shown to support immune

Helps maintain lower blood pressure and boosts energy!

I really enjoy my SuperBeets crystals! I recently lost 60 pounds and was able to discontinue my blood pressure meds. I drink SuperBeets every day to maintain my healthy blood pressure levels. Love it! The energy boost it gives me is a great bonus, too! I wish the original SuperBeets was available in the same berry flavor as the SuperBeets energy plus!

I recommend this product

My Age 50 - 59

This is just what I needed 😊

I am 51 yrs. old, disabled and overweight with many health issues. One of them is Pitting Edema: where my legs get so filled with interstitial fluid that they swell up and are painful at times. You could push a finger into my leg and leave an imprint on my skin after the finger is removed.

I have other issues, as well, dealing with circulation issues. After trying your SUPER BEETS, every evening I noticed that I had no swelling in my legs and I sensed an amount of energy that I didn't have before. I am very pleased so far and almost on my second container of super beets. I subscribed for a 3 month supply and for every 3 mo. I'll receive my 3 jars of super beets and I plan on being consistent with taking super beets everyday. I thank God and I thank you. 🙏 😊

Evaluation

The product is terrific and I've experienced greater energy.

The only downside is that there is a tendency for the product to harden in the cannister about a week after opening.

Good SuperBeet experience

The latest supply of my SuperBeets came in Apple. I really liked the original and hope I can go back to that flavor. I'm not sure why you made the change and will cancel my next reorder if you decide to switch my flavor. If I don't hear back that I will be getting the original flavor I will stop my next reorder.

SUPER ENERGETIC!!!

I have drinking superbeets now for a little over two months. It is great!!! I had to get use to the taste, but after drinking it for awhile I now enjoy the taste, and it really gives me the energy that I needed to keep me going through the day!! It definitely gives you lots of energy!!! I am feeling the best ever, now after drinking my superbeets daily!! Thank you for a great product!!

Best way to start BeetElite

The 2-pack was great for my first purchase! Not only did it give me a 60-day supply to try a new product, it also gave me an idea of which flavor I'm going to prefer for my subscription purchase! This is a win-win, and both the effect on performance and the effect on perceived effort is tremendous! Highly recommend.

That 73 and still putting in 12 hours a day the drink then combined by one of the chews During the day is just the uplift I need to make it through those long hours the taste is wonderful more pleasant than I ever thought it would be

The quick uplift in energy was just what I needed I have a drink in the morning and during the day I'll have one maybe two of the flavored chews, definitely gives me the energy to keep going those long hours till I get home at night .

Continued Satisfaction

This is the second of my auto-ship program. I chose the apple flavor this time. I prefer the cherry flavor so will change back to that for subsequent shipments. The results are good - I see a measurable decrease in my blood pressure by taking Super Beets. I will be sharing this with my doctor and expect to continue with the product.

Effective and tasty!

After taking my first pot of SuperBeets I am happy to say that my diastolic blood pressure has dropped 8 points. I expect it to drop further. I take it each morning and find it a refreshing and meaningful way to start my day. I enjoy the taste but sadly a friend of mine does not. I stress that it is very good for her though! Truly, it's a good thing that you write somewhere NOT to take more than 1 serving per day because otherwise I'd be tempted to take it in the afternoon too!

Thanks for sharing Thomas, while SuperBeets is caffeine free we recommend trying it in mornings so it won't affect your sleep!

multi flavor user

The option to combine both these flavors is what soothes my needs. Having the choice to switch flavors a s the month goes on is great. This product has helped me lower my BP by 39%!!

Energy

It seems to give you more energy but I'd like to see some medical proof about the other claims like how it increases circulation because I have a fib and that is very important to me

Beets are good for you!

Tastes good! Easy to drink. I have high blood pressure, so we shall see what it does. I cant afford a long term use of product unless iit really helps! Hope it does!!

Benefits are real

Was needing increased energy and stamina, so, hoped that part of your ad was true. It definitely WAS a big part of the product's benefit....I feel the increase! I, also, have a noticeable improvement in blood pressure. The flavor is good, too, so makes drinking easy.

Super beets

I really like this product. Truly, I don't like the dirt taste of beet root but I love the flavor of these crystals. Your body immediately feels the impact of this drink. I was a juicer of beets but no more will I do that. Love this product.
